Dear Stefano and Team,

I am writing to say how much we have appreciated having been chosen as one of the sites for the pop up toilet initiative. It has been a huge success, beyond anything we could have imagined.

At our recent church vestry meeting we discussed the impact upon the church and we were told that not only had there been a dramatic improvement in cleanliness around our building but there had also been a marked decrease in acts of vandalism. We think this is not only because people have easy access to toilet facilities, but also because of the friendly and helpful presence of the two people in attendance.

Even people who had previously had reservations, were very enthusiastic, and the thought was voiced, that we would welcome a permanent presence of such a facility here.

Thank you very much Stefano and all the team at Downtown Biz for making this happen.

Yours sincerely

Reverend Enid Pow

On behalf of the Corporation and Vestry of Holy Trinity Anglican Church
