

WHO IS THE VRCID?

The Voortrekker Road Corridor Improvement District betters the community through top up services with the help of public private partnerships. The VRCID operates within a clearly defined geographical boundary within the Bellville and Parow CBD's.

As a Special Ratings Area (SRA), our mandate is to provide support to the City of Cape Town's service delivery teams and SAPS. We are funded by levies paid by commercial property owners within the VRCID.

OUR VISION?

To create and maintain a clean, safe and sustainable urban environment along the Voortrekker Road Corridor.

WHAT DO WE DO?

SAFETY AND SECURITY

Our public safety officers (PSOs) partner with the SAPS and other Law Enforcement agencies to ensure that the VRCID is safe and secure. On duty 24 hours a day, 7 days a week, the PSOs are clearly visible in branded vehicles and uniforms.

Our safety and security team consists of:

- Contract Manager
- Patrol vehicles
- Public Safety Officers
- 2 dedicated City of Cape Town Law Enforcement officers
- Fully functional CCTV security operations centre, monitoring 67 CCTV cameras, 24 hours a day

We encourage VRCID levy payers to contact the 24-hour control room to report suspicious and criminal activity.

VOORTREKKER ROAD

CORRIDOR IMPROVEMENT DISTRICT

SAFE • CLEAN • SUSTAINABLE

URBAN MANAGEMENT

A clean environment is essential for investment and business development in the area. Our cleaning team consists of a Cleaning Manager, 15 dedicated cleaning staff and 3 refuse removal trucks.

To ensure City services are delivered and bylaws enforced, the VRCID Precinct Managers monitor road surfaces, storm water drains, outdoor signage compliance, illegal dumping and public spaces in the area.

Defects can be reported to the Precinct Managers as we have regular meetings with the City of Cape Town officials to find solutions to urban management problems.

SOCIAL DEVELOPMENT

Caring for the less fortunate fosters a sense of inclusivity and makes a city vibrant and resilient. We aim to assist homeless people through outreach programmes, and by supporting organisations that work to alleviate poverty and provide skills training.

Our Social Development Manager and Field Workers focus on building a network, motivating businesses and service providers within the VRCID to form partnerships with each other to support less fortunate citizens.

Our aim is to help people living on the streets to find jobs, reunite them with family or provide them with shelter.

We actively encourage businesses and the public to give responsibly through consulting our Social Development team.
